Subject: well depth

Dear Ms. Hogue,

Recently Cameron Energy permitted the following wells in Warren County:

Lot 438	438-27	123-48932
Lot 438	438-28	123-48933
Lot 438	438-30	123-48935

We have realized since applying for these permits that the target formation for these wells will be deeper than the 1800' we originally estimated when we submitted the applications. The anticipated depth is now between 2010' and 2050' thus triggering the extra \$50 fee for each well.

The last time we encountered this situation we were told there was no form for this situation and that in accordance with 25 Pa. Code section 78.19 (c) we should simply send a check for the additional \$50 per well. We are following that same process here and, therefore, enclosed please find our check in the amount of \$150.00.

Sincerely,

Tyler Q. Martin
Environmental Care Coordinator
