RE: Proposed Alternate Method of Plugging a Well
JP Smith 7H
Permit Number 129-28982
South Huntingdon Township, Westmoreland County, Pennsylvania

Dear DEP Recipient,

Please find attached the following documentation:

- Completed Form 8000-PM-OOGM0024 "Proposed Alternate Method of Plugging a Well"
- Proof of notification of coal related parties

Please note that this is the second of three alternate method requests that will be submitted on this date for this well. Each alternate method request should be processed as a separate authorization ID.

If you have any questions or concerns regarding this application, please feel free to contact me using one of the methods below.

Best Regards,

A handwritten signature in blue ink, appearing to read 'J. Zavatchan'.

DEP USE ONLY
Application Tracking #
1569140

Proposed Alternate Method or Material for Casing, Plugging, Venting or Equipping a Well

Well Operator EQT CHAP LLC		DEP ID# 279986	Well Permit or Registration Number 129-28982	
Address 2200 Energy Drive		Well Farm Name JP Smith		
City Canonsburg	State PA	Zip Code 15317	Well # 7H	Serial #
Phone 412-584-3132	Fax 724-745-2418	County Westmoreland		Municipality South Huntingdon Twp.

*A proposed alternate method is subject to provisions in §3221 of the 2012 Oil and Gas Act, 58 Pa. C.S. §3221 Section 13 of the Coal and Gas Resource Coordination Act, 58 P.S. §513 and 25 PA Code §§78.75-78.75a (relating to Alternate Methods.) **Attach proof of notification of coal operator(s).***

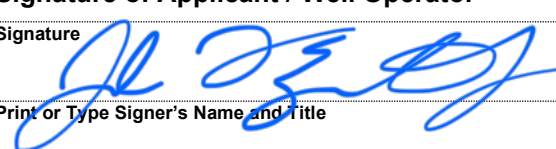

Describe in reasonable detail using a written description and / or diagram:

- 1. the proposed alternate method or materials, and**
- 2. the manner in which the alternative will satisfy the goals of the laws and regulations.**

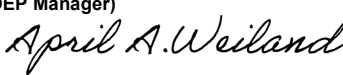

EQT is requesting approval for the optional setting of inflatable packers downhole at Department approved locations outside of regulation 20ft intervals above oil, gas, and water bearing zones. All inflatable packers will be installed with 10'-20' of sand or 6% or greater gel on top of them. These mechanical plugs in conjunction with Class A or Class L cement will help ensure all vertical gas flow in the wellbore is stopped.

EQT will communicate to DEP the intended setting depths of all inflatable packers prior to placement. Should EQT be unable to place an inflatable packer in the intended location, EQT will inform the Oil and Gas Inspector. If EQT identifies the wellbore condition is not supportive of implementing this alternative method, EQT will inform the Oil and Gas Inspector and Oil and Gas Inspector Supervisor and will provide an email requesting to withdraw the alternative method.

- For additional information please contact Beau Fry at 304-552-9460.

Optional: Approval by Coal Owner or Operator		Signature of Applicant / Well Operator	
Signature	Date	Signature	Date
			5/5/2026
Print or Type Signer's Name and Title		Print or Type Signer's Name and Title	
		John Zavatchan - Regional Manager - Permitting	

If optional approval is signed by coal owner or operator, the 15-day objection period may be waived.

Good morning, Daniel:

Please finalize processing of the appended alt methods recommended for approval.

Note: for recording keep I would suggest this email chain be kept in the well file.

Justin/Matt: If an **approved alt method is not utilized by the operator**, please follow up with the **operator to withdraw the unused alt method** to ensure that DEP records are appropriately updated and the CoWP reflects how the well was plugged.
