RE: Notice of Intention to Plug Gas Well with a Solid Column of Cement to Surface – Shevchik #2

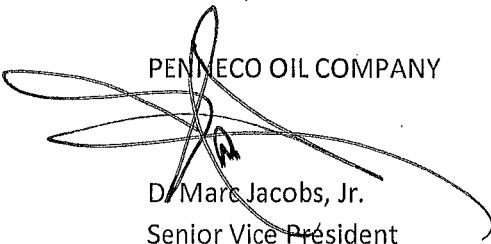

To whom it may concern:

Penneco Oil Company records and research suggest that you are the coal owner of the coal seams (excepting the Pittsburgh Coal seam) underlying the Shevchik #2 gas well in Penn Twp, Westmoreland County, Pennsylvania. Our research also reveals that the coal underlying the Shevchik #2 well is too deep and the surface too culturally developed for strip mining operations and its deposit nature too isolated for deep-mine extraction. This letter is to serve as formal notice of our intention to plug this well with a solid column of cement to surface in 2026. A copy of our Proposed Alternate Method to PA DEP is enclosed for your review and approval. Following verification of receipt or notice of non-delivery, Penneco will commence the process resulting in the plugging of the well.

Should you have any questions or desire further detail regarding the plugging design or timetable, please do not hesitate to contact us.

Sincerely,

PENNECO OIL COMPANY

D. Marc Jacobs, Jr.
Senior Vice President
