Proposed Alternate Method or Material for Casing, Plugging, Venting or Equipping a Well

Well Operator LPR Energy, LLC		DEP ID# 68579		Well Permit or Registration Number 37-111-20297	
Address P.O. Box 192009				Well Farm Name PMG Baird Unit	
City Dallas	State TX	Zip Code 75219	Well # 1H	Serial #	
Phone 814 765-6300	Fax	County Somerset	Municipality Lower Turkeyfoot		

A proposed alternate method is subject to provisions in §3221 of the 2012 Oil and Gas Act, 58 Pa. C.S. §3221 Section 13 of the Coal and Gas Resource Coordination Act, 58 P.S. §513 and 25 PA Code §§78.75-78.75a (relating to Alternate Methods.) Attach proof of notification of coal operator(s).

Describe in reasonable detail using a written description and / or diagram:

1. the proposed alternate method or materials, and
2. the manner in which the alternative will satisfy the goals of the laws and regulations.

A proposed alternate method of plugging is being requested in accordance with 78a.75(a). A detailed well plugging schematic for the proposed alternate method is attached in accordance with 78a.75(b)(3). The reasoning for this alternate method request regarding 78a.92(b)(2) is for the placement of two previously installed cast iron bridge plugs (CIBPs) at 6,909 and 7,000 feet and the placement of a third, 10,000 psi CIBP at 6,850 feet in September 2025. LPR is now planning to set a 9 5/8" CIBP at 1,700 feet to further eliminate the risk of vertical flow of fluids or gas within the well bore. Overall concerns regarding the conditions below the three existing bridge plugs and risking a potential well control incident creating potential impacts to the surface and shallow subsurface were the reasoning for these previous actions.

Optional: Approval by Coal Owner or Operator		Signature of Applicant / Well Operator	
Signature 	Date 08/29/26	Signature 	Date 5/29/2026
Print or Type Signer's Name and Title The Luther B. Nace Jr. Family Trust, Nellie Jacob Trustee		Print or Type Signer's Name and Title Adam Schoppe, COO, LPR Energy, LLC	

If optional approval is signed by coal owner or operator, the 15-day objection period may be waived.

DELIVERED ELECTRONICALLY VIA DOCUSIGN

RE: NOTICE OF INTENT TO PLUG – PMG BAIRD UNIT 1H - API 37-111-20297

Dear Luther B. Nace, Jr. Family Trust,

The records of Somerset County indicate that you are the owner of the coal seams underlying the PMG Baird Unit 1H, API #37-111-20297. LPR Energy LLC ("LPR") intends to plug and abandon the PMG Baird Well and is required by law to advise you of its intent to do so.

Included within are the following documents for your review:

1. Proposed alternate method for plugging form that will be submitted to the DEP
2. Well Plugging Schematic
3. Location Plat

LPR plans to submit a notice of intention by well operator to plug a well ("NOI") with an alternate method to the Department of Environmental Protection ("DEP"), and if approved by DEP, plans to commence plugging operations, as soon as allowed by law thereafter.

Should you have any questions please feel free to contact the undersigned at 814-765-6300 x 205 or by email at bob@lprenergy.com.

Robert J. Liddle
