Remarks: On 8/12/26 at 10:10 AM, the DEP conducted a Routine/Complete inspection of the John E Rieg 1 gas well, owned by the Penneco Oil Company. At the time of the inspection the well was shut in and not in production. The well is free standing and appears to have two new 2" ball valves and fittings. The well did not appear to have any integrity issues, no leaks, spills or odor was observed around the well. The site does not have any associated production equipment. The well did not have a tag or posting attached. The operator has provided the DEP with a schedule to plug the well.
