Re: Inactive Well Status Approval

Dear Operator:

The Department received and reviewed your applications for Inactive status. We are granting inactive status for the following well(s):

- Permit 019-00537
- Permit 019-20047

Inactive status is valid for five years. Inactive status may be renewed at the end of this five year period by applying for renewal and demonstrating the wells continue to meet the requirements. The Department requires that you monitor the wells for mechanical integrity on an annual basis. You will report these results to the Northwest Regional Office by March 31st of the following year.

The Department may revoke inactive status and order immediate plugging if any of the following occurs:

1. Well is in violation of laws or regulations;
2. Inability to perform obligations under 2012 Oil and Gas Act.
3. Well no longer satisfies inactive status criteria.

Pursuant to section 3214(d) of the 2012 Oil & Gas Act, 58 Pa. C.S. §3214(d), an owner or operator of a well granted inactive status shall notify the Department when the well has been returned to active status. The form is located at <http://files.dep.state.pa.us/OilGas/BOGM/BOGMPortalFiles/OilGasReports/2014/OilGasForms.pdf>.

Please contact Curtis LeSuer at clesuer@pa.gov or 814.332.6173 with any questions.

Sincerely,

A handwritten signature in dark ink, appearing to read "S. Craig Lobins". The signature is fluid and cursive, with the first name "S." and last name "Lobins" clearly distinguishable.

Inactive Status Application Review
(Internal Use)

Date Application Received: May 24, 2016

Well Permit Number: 019-00537

Well Completion Date: 1914

Well Record Y ☐ N ☒ Record not submitted on PaRIS

Outstanding Violation(s) Y ☐ N ☒ _____

Extension Y ☐ N ☒ _____

Surface Casing length: 630

Maximum Allowable Surface Casing Pressure: 218
(casing length) x (.433) x (8) as per reg. 78.73, not 78.102

Production Casing Pressure Submitted: Y ☒ N ☐ 250

Annulus Pressure Submitted: Y ☐ N ☒ _____

Is annulus surface casing open to atmosphere Y ☐ N ☒

If gas exists at an inactive oil well, the operator may vent or confine the gas to the producing formation
If greater than 5,000 cubic feet/day gas is being produced, the Department must be notified and remedial action taken.

When will the well be utilized? December 2016 (month/year)

Future use: Reserves remain & well is to be produced

Comments: Operators internal audit found well needed mining equipment & will be placed back in production. Approval recommended

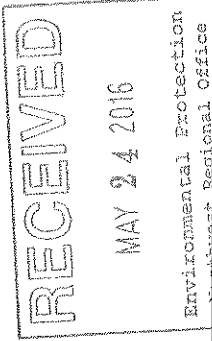

Signature: Curtis LeDue Date: 8/3/16

Application for Inactive Well Status

Well Operator XTO ENERGY, INC.		DEP Client ID # 265476		Well Permit or Registration Number 37-019 00537-00-00	
Address 190 Thorn Hill Road		Well Farm Name L Rettig 73A		Well # 3	Serial #
City Warrendale	State PA	Zip Code 15086	County Butler	Municipality Summit Township	
Phone 724-772-3500	Fax 724-772-3505	Bond Instrument No. 019037383		Is this an application for annual extension of inactive status? ☐ Yes ☒ No	
Condition of the Well Describe in detail how the condition of the well satisfies the criteria for approval of inactive status. See 25 Pa. Code §§ 78.102(i), (2)(i) or (ii) and (3). Use additional sheets if necessary. If available, attach well records, driller's logs, and other information describing well casing, cement, equipment, and any other pertinent information.					
Well Type: ☒ Gas ☐ Oil ☐ Combination Oil & Gas ☐ Injection ☐ Storage ☐ Disposal					
Casing Diameters: 6 1/4"	Casing Lengths: 630'	Type and amount of cement (sacks) used for surface casing: N/A			
2"	2685'	Tubing or Production Casing Pressure (current): 250 CSG / N/A TBG If an oil well, state the depth to fluid in the surface casing:			
		Annulus Pressure (current - between tubing or production casing and surface casing):			
		6 1/4" x 2" N/A			
Tubing or production casing diameter: N/A	Tubing or production casing length:	Is the annulus open to atmosphere? ☐ Yes ☒ No			
Other information about the well's condition: No meter.					
Future Use of the Well Describe a viable plan, in accordance with 25 Pa. Code § 78.102(4), explaining the intended future use of the well within a reasonable time. Use additional sheets if necessary. Provide the information requested below and any other information necessary for DEP to make a determination on inactive status for this well. Provide certification that one of the following applies (check one): ☒ Significant reserves remain in place and I plan to return the well to production.					
The well will be used for: ☐ Disposal ☐ Storage ☐ Observation ☐ Injection - Recovery ☐ Other (describe)					
This well will be returned to use in: Month: December Year: 2016					
State your plan for future use of the well. Purchasing and installing meter.

Remarks: At the time of inspection, operator has applied for inactive status for well. This is a gas well. Integrity appears to be in good condition, with no leaks coming from the well. There is 6 1/4" casing with 2" . Production casing has 250 psi on it. Well is not equipped to take annuli pressure.

Upon review of information submitted and an inspection of the well, the Department has determined that the well meets the requirements of 3214(a)(1) and 3214(a)(2) from the Oil & Gas Act of 2012.

Re: Exhibit A for Blanket Surety Bond for Oil and Gas Wells

Dear A : right:

Thank you for your list of T.W. Phillips Gas and Oil Co.'s ("T.W. Phillips") 15 wells drilled or reworked after April 18, 1985. The list will be used to complete the Blanket Surety Bond in connection with T.W. Phillips' transfer of gas wells to T.W. Phillips Gas Supply Corp. ("Supply Corp.").

All of the listed wells are active storage wells and will not be transferred to Supply Corp. The remaining ten wells will be transferred to Supply Corp. and are shown on Exhibit A. For clarification, a list of the 15 wells, their current status, and our transfer intentions is also enclosed.

If you have any questions or need additional information concerning this matter, please do not hesitate to contact me at 724-287-2751, Extension 232.

Sincerely,

Keith
