Proposed Alternate Method or Material for Casing, Plugging, Venting or Equipping a Well

Well Operator Concordia Luth Health & Human Care		DEP ID#		Well Permit or Registration Number 019-00552	
Address 134 Marwood Road		Well Farm Name WH Cooper			
City Cabot	State PA	Zip Code 16023-2206	Well # 0	Serial #	
Phone 724-816-2493	Fax	County Butler	Municipality Winfield Twp		

A proposed alternate method is subject to provisions in §3221 of the 2012 Oil and Gas Act, 58 Pa. C.S. §3221 Section 13 of the Coal and Gas Resource Coordination Act, 58 P.S. §513 and 25 PA Code §§78.75-78.75a (relating to Alternate Methods.) **Attach proof of notification of coal operator(s).**

Describe in reasonable detail using a written description and / or diagram:

1. the proposed alternate method or materials, and
2. the manner in which the alternative will satisfy the goals of the laws and regulations.

Concordia Nursing Home is requesting that the Department allow another method to cement the well. With an attainable bottom of 1,379 ft, Concordia is requesting to leave the 3" casing in the well because when swabbing, chunks of cable and nylon fiber rope came out of the swab tool in addition to cavings. We propose to perforate the 3" every 50 feet from 1,379 ft to 100 ft under the 2" packer (that will be at 1,140 ft). I am concerned if we clean out any further, we could pick up a ball of cable and would not be able to get up through the 2" tubing thus compromising the hole. A bond log was ran, but the log did not indicate much behind the 3"; possibly due to gypsum.

Optional: Approval by Coal Owner or Operator		Signature of Applicant / Well Operator	
Signature	Date	Signature <i>[Signature]</i> ON BEHALF OF Concordia Luth Health & Human Care MINISTERS	Date 7/29/26
Print or Type Signer's Name and Title		Print or Type Signer's Name and Title	

If optional approval is signed by coal owner or operator, the 15-day objection period may be waived.
