A proposed alternate method is subject to provisions in §3221 of the 2012 Oil and Gas Act, 58 Pa. C.S. §3221 Section 13 of the Coal and Gas Resource Coordination Act, 58 P.S. §513 and 25 PA Code §§78.75-78.75a (relating to Alternate Methods.) **Attach proof of notification of coal operator(s).**

**Describe in reasonable detail using a written description and / or diagram:**

1. the proposed alternate method or materials, and
2. the manner in which the alternative will satisfy the goals of the laws and regulations.

In lieu of the coal venting requirements set forth in the PA Code 25, section 78.92 a (3), a solid cement column will be placed from total depth or DEP approved attainable bottom to the surface insuring that the vertical flow of fluids or gas within the well bore will be stopped.

|                                                     |      |                                               |         |
|-----------------------------------------------------|------|-----------------------------------------------|---------|
| <b>Optional: Approval by Coal Owner or Operator</b> |      | <b>Signature of Applicant / Well Operator</b> |         |
| Signature                                           | Date | Signature                                     | Date    |
|                                                     |      |                                               | 7/29/26 |
| Print or Type Signer's Name and Title               |      | Print or Type Signer's Name and Title         |         |
|                                                     |      | D. Marc Jacobs, Jr. Senior Vice President     |         |

If optional approval is signed by coal owner or operator, the 15-day objection period may be waived.

|                                                          |                                                                                                        |                        |

RE: Notice of Intention to Plug Gas Well with a Solid Column of Cement to Surface – Cummins #1

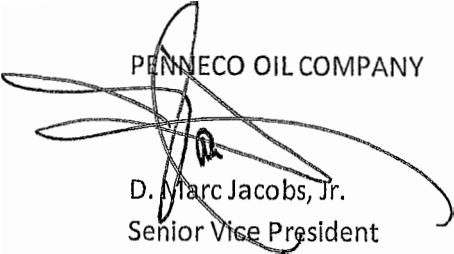

To whom it may concern:

Penneco Oil Company records and research suggest that you are the owner of the Pittsburgh coal seam underlying the Cummins #1 gas well in Manor Borough, Westmoreland County, Pennsylvania. This letter is to serve as formal notice of our intention to plug this well with a solid column of cement to surface in 2026. A copy of our Proposed Alternate Method to PA DEP is enclosed for your files. Following verification of receipt or notice of non-delivery, Penneco will commence the process resulting in the plugging of the well.

Should you have any questions or desire further detail regarding the plugging design or timetable, please do not hesitate to contact us.

Sincerely,

PENNECO OIL COMPANY

  
D. Marc Jacobs, Jr.  
Senior Vice President
